EDUCATION

Master of Science in Cognitive science (2024-2026)

University of Tehran, Tehran, Iran

Supervisor: Dr. Ehsan Rezayat, Dr. Reza Kazemi

Dissertation title: Investigating the Effect of Transcranial Magnetic Stimulation of the Frontal Lobe on the Precision of Face related Working-Memory Retrieval.

Bachelor of Science in Education Science (2019-2023)

Farhangian University, Birjand, Iran

Bachelor of Science in Mechanical Engineering (2017-2019)

Ferdowsi University of Mashhad, Mashhad, Iran

Unfinished (transitioned into Education)

RESEARCH INTEREST

Cognitive Neuroscience, Brain Stimulation, VR, Immersion, EEG, Working Memory, Cognitive Modelling

RESEARCH EXPERIENCE

Researcher in the Ehsan Rezayat Laboratory, Faculty of Psychology and Education (2025-present)

Supervision: Dr. Rezayat

- Conducting research on visual working memory for face perception using behavioral experiments, transcranial magnetic stimulation (TMS), and quantitative data analysis for my master's thesis.

PUBLICATION

Ghasemi, S. A., Mehdi Zadeh, I., **SalarSadeghi, M.**, & Miri, M. (2024). Examining The Role of School Quality of Life in Predicting Learned Helplessness in Adolescents with the Mediating Role of Selfexpression. *Adolescent and Youth Psychological Studies*.

Under Review (minor revision)

Ghasemi S. A, **Salarsadeghi, M**, Miri, M, Khamesan, A. Psychoeducational Challenges of Dyslexic Children during the COVID-19 Pandemic: A Systematic review, *Dyslexia*

WORK EXPRIENCE

Primary School Teacher:

- 4th Grade Full Time Teacher 2024-2025
- 6th Grade Full Time Teacher 2022-2024; 2025-present

High School Tutor

2019-2020

- Volunteered as a tutor for high school students, offering support and guidance in various subjects including Math & physics to help them achieve academic success.

Peer Tutor (Engineering, Mathematics, and Physics)

2017-2019

- Provided voluntary tutoring during my years studying engineering, assisting fellow students in understanding engineering, mathematics, and physics concept.

PROJECTS

Parametric Auditory Working Memory Task (MATLAB, Psychtoolbox)

2025

- Designed and implemented a psychophysics experiment in MATLAB using Psychtoolbox for a graduate Laboratory Methods course, replicating the paradigm from Akrami et al. (2018) to investigate how delay affects auditory discrimination and working memory.
- Programmed stimulus generation and presentation of auditory stimuli (pink noise at varying intensities), collecting reaction times, accuracy, and key responses across randomized trial structures.
- Automated trial randomization, feedback presentation, and data logging, enabling clean export for statistical analysis.
- Produced visualizations of accuracy across delay conditions to evaluate memory decay over time.

SKILLS

language: Persian (Mother Tongue), English (Fluent), Arabic (Basic Understanding)

Programming: MATLAB, Python, R

Signal Processing (EEG)

Related Softwares: SPSS, Microsoft Office, PsychToolbox, EEGLAB, Visual Studio, MS Office

Psychophysics, Teaching

WORKSHOPS AND SCHOOLS

Online Specializations (Coursera):

- **Python for Everybody**, University of Michigan: Comprehensive study of Python programming for data manipulation and analysis.
 - Programming for Everybody
 - Python Data Structures
 - Using Python to Access Web Data
 - Using Databases with Python
 - Capstone: Retrieving, Processing, and Visualizing Data with Python
- **Machine Learning**, Stanford University: Comprehensive study of machine learning algorithms and their applications using **MATLAB**
- **MATLAB Programming** for Engineers and Scientists Specialization
 - Introduction to Programming with MATLAB
 - Mastering Programming with MATLAB (For the final project I developed a MATLAB-based application for visualizing and analyzing COVID-19 data using Object-Oriented Programming and an interactive GUI.)
- Complete neural **signal processing** and analysis: Zero to hero (Mike X Cohen)
 - Training in neural time-series analysis, EEG signal processing, spectral analysis, non-parametric statistics, and MATLAB-based data analysis.
